

Tax Accountancy

Tax and donation laws are comprehensive with many details and regular reforms to be taken into consideration. This requires extensive know-how and constant further education. We offer support and consultancy for all your tax questions as well as in the planning of your company's future.

Services we offer

- steady information on new and important tax laws
- preparation of financial statements: balance sheets or cash method of accounting
- Tax planning to optimize the tax burden
- Representation in criminal proceedings against the penalties and fines
- Representation during audits
- Execution of company accounting (current investment, financial and payroll accounting)
- Preparation of tax declarations for private individuals, people in the legal profession and enterprises
- Application in tax matters such as tax debt deferrals, reduction of advances payments on taxes or prolongation of payment periods
- Legal structure consultancy
